(1913308 Follow-on Work Statement)

Electromagnetic Warfare Planning Operation

The Electromagnetic Warfare Planning Operation will provide consulting services and staff planning aids pertinent to the overall management of an effective, continuing electromagnetic warfare program.

Specifically, the following effort will be part of the services provided:

- a. Detailed specification of the work statements for an operational ECM deception equipment, an electromagnetic environment simulator and related simulator test equipments.
- b. Technical monitoring, guidance, and liaison between the program sponsor and contractors to enhance fulfillment of program objectives.
- c. Quantitative test evaluations and test planning.

Additionally, the general objectives of the initial EMW Planning Operation work statement will apply. Related system studies, technical planning, conceptual design, statements of technical goals and technical evaluations will be conducted as required to fulfill integrated mission objectives.
